A World Leader in Engineered Video Systems

The system diagram that follows depicts Vicon's proprietary engineered video systems capability. Video system designs can range from basic to the world's most sophisticated, each offering their own unique benefits.

Market-Leading Products

Surveyor, AurorA, Nova and ViStar headline a powerful list of market-leading proprietary products that reflect Vicon's commitment to become the industry standard for high performance video systems designed and engineered by one company; a company with more than 30 years of experience and know-how in an ever-evolving market.

Customer Technical and Support Services

We recognize the obligation to provide our customers with the highest level of technical and support services due to the growing sophistication of video systems. That's why the Vicon Advantage includes such services as system design, engineering project management, hardware and software support, product training and the industry's leading warranty.
